

MEMORANDUM FOR RECORD: 17 IHR 06

Subject: Emergency Spill Operation to Clear Ice Harbor Forebay Debris

Approximately 350 square yards of debris has accumulated in the forebay of Ice Harbor in the vicinity of spillbays 3 and 5 on 15 May 2017. In response to the forebay debris accumulated near spillbays 3 and 5 Ice Harbor performed an emergency debris spill from 1230-1328 hours on 15 May 2017. During the debris spill the spill pattern was changed however the spill volume remained unchanged. Modification to the spill pattern included opening spillbays 3 and 5 to full, reducing spillbay 4 to 1 stop, reducing spillbay 8 to 2 stops and closing spillbay 9. The spill pattern was returned to normal operation at 1328 hours.
