

Draft FPP Change Form

9/14/07

Change Request Number:

Date: 11/15/2007

Proposed by: Fisheries

Location of Change

BON-2.4.2.2.h.5

Proposed Change:

Include cleaning criteria for PH2 VBSs.

5. VBSs will be cleaned when drawdowns reach 1.1' on any day (including weekends) and when drawdowns reach .9' on Thursdays.
6. If a screen has reached the cleaning threshold, all three screens in that unit will be cleaned.
7. The unit will be shut down if the drawdown reaches or exceeds 1.5' in a 12 hour period.

Reason for Change:

To get the criteria written in a regional document and clarify the procedure.

Comments from others:

Record of Final Action:

Language added as proposed.
