

Change Request Number: 09JDA001

Date: 4/24/08. Updated on 10/31/2008

Proposed by: John Day Project

Location of Change- JDA 1.1.3

Proposed Change:

Change November 30, weather permitting to as close to November 15 as personnel and weather allows.

Reason for Change:

The Project is concerned about freezing temperatures and staffing. They will attempt to keep the facility operating for PIT tag interrogation for as long as possible but feel anything beyond 15 November is risky.

Comments from others: OK.

Record of Final Action: FPOM reviewed and agreed to the change.

At the August FPOM, members agreed to keeping the SMF operating until 30 November. The approved change (above) was reverted to the original language.
