

# FPP Change Form

**Change Request Number: 10JDA007**

**Date:** February 5<sup>th</sup>, 2010

**Proposed by:** David Benner, FPC

**Location of Change-** JDA 2.4.1.1.j.

**Current Language:**

**j. Avian Abatement Measures.** Avian abatement measures shall be in place by April 1. Repair avian predator control lines as soon as possible following damage or removal. Install and maintain new avian predator control lines in locations determined to be significantly impacted by avian predators. Avian hazing will occur May 1 – July 31. However, there will be no avian abatement measures, other than avian lines, performed from July through May each year.

**Proposed Change:**

**j. Avian Abatement Measures.** Avian abatement measures shall be in place by April 1. Repair avian predator control lines as soon as possible following damage or removal. Install and maintain new avian predator control lines in locations determined to be significantly impacted by avian predators. Avian hazing will occur May 1 – July 31. However, there will be no avian abatement measures, other than avian lines, performed from ~~August~~July through ~~April~~May of each year.

**Reason for Change:** This second to last sentence says that avian hazing will occur May1-July31. The original last sentence did not make sense, if hazing were occurring May-July.

**Comments from others:**

USFWS- I support the following change forms.

NOAA- Ok with change.

CRITFC- agree with.

BPA has no concerns with this change

**Record of Final Action:** approved for the 2010 FPP via email on 2/12/2010
