

Change Request Number: 11TDA013

Date: January 4, 2011

Proposed by: Fish Field Unit, USACE Portland District

Location of Change: 1.2.2. Adult Migration Timing and Counting; on page TDA-1 of the 2010 Fish Passage Plan

Proposed Change: ...Adult ~~fish~~ (salmon, steelhead, ~~shad~~, and lamprey) are normally counted from April 1 through October 31 (Table TDA-1), and these data appear daily on the Corps adult count website. Migration timing data for these species, ~~except shad~~, appear in Table TDA-2.

Reason for Change: FPOM has directed (November, December meetings 2010) that shad counting be stopped at The Dalles.

Comments from others:

USFWS- support with change in track changes.

Record of Final Action: approved 21 January 2011 meeting. Have NC on shad for TDA.
