# Fish Facility Design Review Work Group 5 August 2010

#### B2 FGE (Medina/Lee/Schwartz)

- More detailed hydraulic evaluations underway
- Scheduling for more comprehensive briefing for the region is pending
- Light attraction study complete, biological report in late fall, preliminary data suggests attraction for some species, PDT is recommending a second year of testing

#### B2 BGS (Medina/Schwartz/Ament/Ebner)

- The PDT has determined that O&M, repair and design costs for another year of testing far outweigh the marginal gains evident from two years of study data
- P&S development for BGS removal before the start of the next fish passage season are underway

#### B2 Corner Collector Gate Hoist

- P&S at 90% are complete. Final report/BCOE will be completed by mid-October
- Acquisition process for fabrication will start as soon as funds are available
- Installation is planned for the winter of 2011

#### Turbine Survival Program (Medina/Ahmann//Langeslay)

- Preliminary BIT Data Mining Study suggests tag burden is responsible for high indirect mortality
- Development of external tags is being pursued
- Direct capture P&S at 60%
- Turbine design process for Ice Harbor is underway and going well

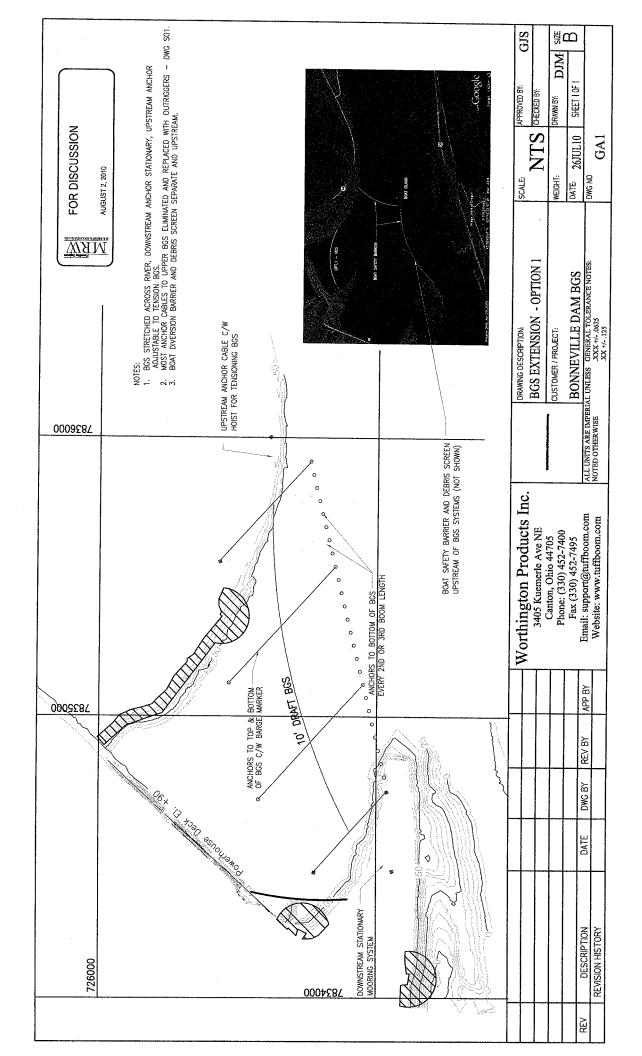

# JDA Configuration and Operation Plan (Medina/Hanson/Askelson/Tackley)

- TSW/Flow deflector and array working as designed and anticipated
- Avian array still has line chaffing issues to work out
- Acoustic issues for avian wire array will be evaluated and mitigated
- Flow deflector optimization study has started and is underway
- Revision of COP under way and should be completed by the end of this FY

### The Dalles North and East Adult Fish Ladder Study - (Medina/Lee/Tackley)

- Task order award for HDR in mid August
- Leaning towards recommendation to rehab units and having spare parts in place
