

MEMORANDUM FOR THE RECORD**SUBJECT: 19BON26 Adult Fish Facility (AFF) Pacific Lamprey Mortality.**

On the morning of 04 July, CRITFC translocation technicians informed Project Fisheries of a Pacific Lamprey mortality found on the valve 15 trash rack within the AFF. The fish was scanned for PIT tags; none were found. After information was collected, the fish was returned to the river. Information gathered can be found below.

1. Species – Pacific Lamprey (*Entosphenus tridentatus*).
2. Origin – Unknown.
3. Length – Approximately 67 cm.
4. Marks and tags – No observed marks and/or tags.
5. Marks and Injuries found on carcass – No observed marks and/or injuries present. The interesting design is due to the fish being left on a rubber mat and not of natural origins.
6. Cause and Time of Death – Unknown.
7. Future and Preventative Measures – None.

Sincerely,
Project Fisheries
