

**MEMORANDUM FOR THE RECORD**

**SUBJECT: 20BON35 CRITFC AFF Holding Tank Pacific Lamprey Mortalities**

On Monday morning 7/6/2020, CRITFC staff found two Pacific Lamprey mortalities in a holding tank in the Bonneville AFF. The fish were collected for the CRITFC-Tribal translocation program. The cause of death was not apparent, but the fish showed pale ventral areas typically found on fish in compromised health. Photos of the fresh mortality were taken at the time of removal from the trap. The fish were frozen pending potential future pathogen analysis.

- A. Species –
- B. Origin –
- C. Length –
- D. Marks and tags –
- E. Marks and Injuries found on carcass –
- F. Cause and Time of Death –
- G. Future and Preventative Measures –
