

MEMORANDUM FOR THE RECORD

SUBJECT: 13JDA02 MFR- Pacific Lamprey mortality at John Day Dam's North Ladder.

On 29 August 2013, University of Idaho personnel contacted the smolt monitoring facility and reported a Pacific Lamprey found dead by the collection box on the North ladder entrance deck. We believe the lamprey may have slipped out of the collection box of the LPS onto the deck sometime last night as nothing was observed the previous day.

- A. Species – **Pacific Lamprey**
- B. Origin – **Unknown**
- C. Length – **62cm**
- D. Marks and tags – **None**
- E. Marks and Injuries found on carcass – **None**
- F. Cause and Time of Death – pm of 8/28 or am of 8/29
- G. Future and Preventative Measures – We will discuss preventative measures with UofI.

Sincerely,
John Day Project Fisheries
