

MEMORANDUM FOR THE RECORD

SUBJECT: 20JDA08 Storm damage near south fish ladder

On Saturday, 30 May, a severe storm moved through the JDA area with heavy rains, thunder and lightning, and strong winds. These strong winds uprooted trees in Giles French Park and a tree next to the south fish ladder. The uprooted tree near the south fish ladder, fell across the hand rail and some of the branches made contact with the water. JDA maintenance crews removed the tree from the hand rail Sunday. The ladder is functioning properly and the only damage is to the hand rail which doesn't pose a safety risk.
