

MEMORANDUM FOR THE RECORD**SUBJECT: 23JDA40 14A Broken Orifice Shaft**

On 13 November 2023, at approximately 1400, JDF personnel noticed that 14A orifice was in the closed position on the PLC screen in the office. The control room was called to try and cycle the orifice open, which was unsuccessful. After a visual inspection, it was determined that the shaft had become uncoupled from the pneumatic piston. JDM repaired 14A on 14 November at 1400.

- A. Species – NA
- B. Origin – NA
- C. Length – NA
