

MEMORANDUM FOR THE RECORD: 20TDA04 MFR Gatewell 12-1 juvenile mortality

SUBJECT: Juvenile salmonid mort gatewell 12-1

During gatewell inspections, some juvenile salmonids are often observed in gate wells during the peak of the outmigration. Mortalities are uncommon. Gatewell 12-1 had approximately 15 live juvenile salmonids and one mortality observable from deck level when sunlight reaches the water surface. Higher than normal live juveniles were recently observed in gatewell 18-1. (refer to [20TDA03 MOC](#))

- A. Species – Salmonid (unable to determine species, nor able to collect specimen)
- B. Origin – NA
- C. Length – NA
- D. Marks and tags – NA
- E. Marks and Injuries found on carcass – NA
- F. Cause and Time of Death – week prior to 6/9
- G. Future and Preventative Measures – None, monitoring will continue

Sincerely,

Project Fisheries
