Dear Ms. Woodley:

This is in response to your January 12, 2014 letter requesting approval for access to Bonneville Project's Juvenile Monitoring Facility (JMF) to conduct surgeon training in support of the Portland District's study, "Juvenile Salmonid Dam Passage and Survival at McNary and John Day Dams, 2014." Mr. Brad Eppard is the PM-E point of contact.

With respect to the work outlined in your research packet, your request is generally approved, provided you are able to obtain all necessary ESA and state permits. **No work may begin until valid and current permits, or an explanation as to why permits are not required, are on file with Mr. Andrew Traylor and Ms. Tammy Mackey.**

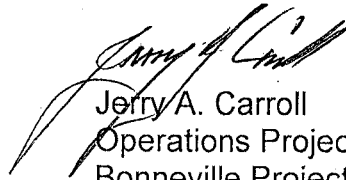

Prior to beginning work, please arrange a meeting with Mr. Andrew Traylor, (541) 374-4020. You will need to provide a Project impact statement, job hazard analysis, copies of permits, and a personnel list. Please send electronic copies of these documents to Mr. Traylor, andrew.w.traylor@usace.army.mil and Ms. Tammy Mackey, tammy.m.mackey@usace.army.mil. Please remain in contact with Mr. Traylor throughout your time at the dam. There are many researchers and contractors working at the dam, please work to ensure good communication and cooperation between agencies and organizations.

In addition to coordinating with Project Fisheries, you will also coordinate collections activities with the JMF Smolt Monitoring Personnel: Mr. Rick Martinson, rickm@gorge.net and Mr. Dean Ballinger, deanb@gorge.net.
