Dear Ms. Liedtke:

This is in response to your August 27, 2014 letter requesting approval for access to Bonneville Dam to establish fixed radio-telemetry sites in order to monitor tagged adult salmon. It is understood that this research is part of the Alternative Gear Study being conducted by the Washington Department of Fish and Wildlife. Your proposal states that an essential part of this project is the ability to monitor when the fish arrive at the project in an effort to determine their fate.

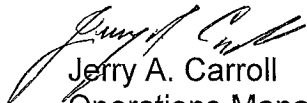

With respect to the work outlined above, your request is generally approved. Prior to beginning work, please arrange a meeting with Ms. Ida Royer, 541-374-2541.

Please remain in contact with Ms. Royer throughout your time at the dam. There are many researchers and contractors working at the dam; please work to ensure good communication and cooperation between agencies and organizations.

A copy of this letter has been posted to <http://www.nwd-wc.usace.army.mil/tmt/documents/FPOM/2010/NWP%20Research/2014%20NWP%20Access/>.

If you have questions regarding this correspondence, please contact Ms. Royer via e-mail or by phone, at 541-374-2541.

Sincerely,

Jerry A. Carroll
Operations Manager
Bonneville Project
