PO Box 151, Fort Road
Toppenish, WA 98948

Dear Mr. Rose:

This is in response to your May 01, 2017 letter requesting approval for access to Bonneville Dam's Adult Fish Facility (AFF) in order to collect up to 392 adult Pacific Lamprey for the purposes of translocation and research on adult passage in the Yakima, Wenatchee, and Methow subbasins. Lamprey will be collected from lamprey traps deployed at the AFF; trapping and holding of fish will be conducted by the Columbia River Inter-Tribal Fisheries Commission and will not be the responsibility of the U.S. Corps of Engineers.

With respect to the work outlined above, your request is generally approved, provided you are able to obtain all necessary ESA, state, and/or tribal permits. No work may begin until permits, or an explanation as to why permits are not required, are on file with Ms. Ida Royer and Ms. Erin Kovalchuck. You will be required to follow all protocols found in the current Fish Passage Plan (FPP) Appendix G - Protocols for Adult Fish Trapping Operations.

Prior to beginning work, please arrange a meeting with Ms. Ida Royer, 541-374-2541. Please remain in contact with Ms. Royer throughout your time at the dam. There are many researchers and contractors working at the dam, please work to ensure good communication and cooperation between agencies and organizations.

A copy of this letter has been posted to NWP Access Responses found at <http://www.nwd-wc.usace.army.mil/tmt/documents/FPOM/2010/NWP%20Research/Research.html>. If you have questions regarding this correspondence, please contact Ms. Royer via e-mail or by phone.

Sincerely,
