January 10, 2017

Kevin Moynahan, Operations Manager
U.S. Army Corps of Engineers
John Day Dam
Rufus, Oregon 97050

Dear Mr. Moynahan,

This letter is a request for access to the smolt monitoring facilities at John Day Dam in 2017. Access is required for implementation of the regionally approved smolt monitoring program at that facility. The details of our proposed operation are described in the attached WORK STATEMENT 87-127, BPA CY 2017.

Our operations are part of the larger smolt monitoring program coordinated by the Fish Passage Center and authorized in Appendix B of the 2000 Biological Opinion, Research Action 1193. A copy of the Appendix and all other required paperwork will be provided to the project before sampling begins.

If you have any questions please contact Rick Martinson at (541) 296-8989.

Sincerely,

Rick Martinson
Project Leader
PSMFC Smolt Monitoring
John Day and Bonneville Dams
