Subject: Northern Pikeminnow Management Program Employee Access

Dear Mr. Moynahan:

The purpose of this letter is to request renewed access to John Day Dam to carry out ongoing BPA-funded research associated with the Northern Pikeminnow Management Program.

I am requesting access to John Day Dam tailrace for two individuals (i.e., Pikeminnow samplers) 1 June-15 September, 2020. The pikeminnow samplers will coordinate closely with the WDFW/PSMFC Northern Pikeminnow angling crew that will be fishing primarily in John Day Dam tailrace, in order to collect diet samples and biological data from harvested Pikeminnow.

We will provide any pre-project documentation required of researchers working at John Day Dam and all necessary contact information so that security clearance and access badges can be issued.

If you have any questions or require additional information, please feel free to contact me directly (Office: 971-673-6061 Cell: 502-216-5347). Thank you for considering this request for project access.

Sincerely,

Charles M Barr

Mac Barr
Project Leader, Predation Studies
