MEMORANDUM FOR THE RECORD 13 LWG 20 Cold Weather shutdown of juvenile fish facility

SUBJECT: Cold weather early shutdown of LWG juvenile fish facility

Cold weather is forecasted in the area this week. According to the online NOAA weather forecast web page – 13 miles SW Albion, WA or Lower Granite Dam, temperature highs are expected to be below 20 degrees F, for Thursday December 5th through Sunday night December 8th. As defined in the FPP, anticipated temperatures below 20 degree F for 24 hours, to occur for an extended period of time between Thanksgiving and December 15, the ESBS's may be removed.

Temperatures December 2, 2013, on this NOAA web site display:

Thursday December 5 –	High 18, Low 11
Friday December 6 –	High 19, Low 7
Saturday December 7 –	High 17, Low 7
Sunday December 8 –	High 19, Low n/a

Lower Granite intends to start removing ESBS's and winterizing the juvenile fish facility on Wednesday morning December 4th.

Thank you
