

## **FPOM - AVIAN TASK FORCE**

### **AGENDA**

**Feb 11, 2020 – after FPOM (1PM)**

**Use FPOM call in #**

**Goal – Evaluate avian predator abatement at projects. Determine further action needs.**

#### **Previous Tasks;**

1. FPP Appendix LTD done – Cordie
2. USDA form 37
3. Show damage? USDA form 37. NEPA process status - Schmidt/McDowell
4. Standardized counting methods per dam

#### **New Information to share;**

1. TD bird trend graph - Cordie
2. PIT recovery map - Cordie
3. TD and JD lethal gull and cormorant removal – Paul Schmidt
4. WDFW pelican summary – Charlie Morrill
5. Miller Island Strategy – Bill Sharp
6. Overall population survey

#### **Other bird predation issues**

1. CRITFC could describe their request to the NPPC for an ISAB review of the Haeseker et al and Payton et al papers (the additive vs. compensatory nature of avian predation)
2. - ODFW could update us on likelihood of starting to haze cormorants off the A-M Bridge in 2021 or 2022
3. - Corps could update us on plans for PIT tag collections in the estuary in 2021 (we got a spoiler from Jake today, but wonder if folks have Qs)

#### **Agenda from first meeting**

1. Review history – FPOM website
2. Miller Island status
3. Appendix L updates – (i.e. ~2000' boundary?)
4. Data collection – status reports – annual report
5. Problem species/predator population changes
6. BiOp targets
7. Hazing options
8. NWP lethal! – trigger – agency endorsement
9. Who manages migratory bird populations
