## SMOLT MONITORING FACILITY

### Operation:

End-of-season dewatering occurred on 12/5 PM after the critical flushing valve was fixed by JD Maintenance. The draining of fish accumulated at PDS was well coordinated. The following evacuated fish numbers were visually estimated: 15 Adult Salmonids, 3 Adult Lamprey, 1 Adult Sturgeon, 1 Juvenile Sturgeon, 100 Juvenile Lamprey, 8 large cats, 1 carp, 45 sculpins, 10 Adult Shad. All were drained into tailrace in excellent condition.

JD Fisheries was assisted by two JD Park Rangers, Olivia and Greg whose help was invaluable/critical to the fish safety and their proper evacuation from PDS.

### Maintenance:

Winterization of SMF components/ pipes starting on 12/9. Planning for the upcoming winter's SCADA update underway.

### Research: None

## ADULT FISHWAYS & TW AVIAN GRID

### Birds:

Winter birds only without much impact on JD fish passage. See Bird Count tab for details.

All 125 avian lines in place without any deficiencies.

### Operations:

November STS/ VBS camera inspection complete by 11/21. All screens were found undamaged and working properly.

JD South Adult Fishway maintaining criteria with 2 AWS Turbines. Turbine 3 is currently under maintenance and will return to service by 1 March 2020.

JD North upper was dewatered on 12/3 AM. JD North lower entrance dewatered on 12/10 followed by the AWS on 12/11

JBS was dewatered on 9 Jan for Winter maintenance and scada upgrade

MU Gatewell Drawdown All MUs trashrack differentials are 1.5' or below according to twice a week inspections.

### Maintenance:

JD South Fishway continues operating with two AWS turbines ( No. 1 & 2) since early April. AWS turbine No. 3 waiting for the replacement of its thrust bearing which is on order/ in contracting ( at approx. \$ 20 K.)

JD North Fishway is oos for Winter maintenance. Pump 4 has been pulled out for assesment and Pump 3 is being reinstalled

JD Maintenance unstacked pump 3 during the trouble shooting efforts in August - September. Both pumps are expected to be available for service, for 2020 passage season starting on 1 March.

Calibration: All gauges/ sensors are within the criteria of 0.3' .

### Research:

JDS and JDN Adult PIT systems are in service and detecting PIT tags since 3/1/18.

Approved by: Ron Twiner, Acting OPM
