## Maintenance

ROV inspection of fish unit intake trashrack Jan18 to assess aquatic vegetation buildup.

Planning to use fish unit intake trashrack rake in anticipation for future debris buildup concerns. To be in service be March 1.

EFL exit weir 155 repair in progress. Weirs 154 and 155 cutting lamprey orifices per PDT recommendation.

Plan to pull north entrance trashrack end of Jan for inspection.

Calibrations: North entrance maintaining criteria.

Spillway assessment (MRER); Spillgates 1-9 rehab 2034. Includes spillbay 9 trunnion pin repair. Spillway crane first priority Planning spill gates 9 and 10 cable and gearbox swap. Replacing bulkhead seals needed. Completion estimate end march. Fish unit rehab Phase 1A awaiting funding.

AWS intake trashrack debris management - PDT reviewing alternatives.

## Predators

Bald Eagles dominating other predatory birds from westrick park. Western/glaucus wing gulls still spending overnight on project Hybrid gulls dispersing daily, unable to feed due to eagles. Resident cormorants foraging around project.

Using green laser to move gulls and cormorants from common resting areas. Making comments to EA drafted by Paul Schmidt.

Construction/Contractors

USGS ladder-river temperatures-F°

4 peaks counting 4/1-10/31. Video counting will occur through December this year.

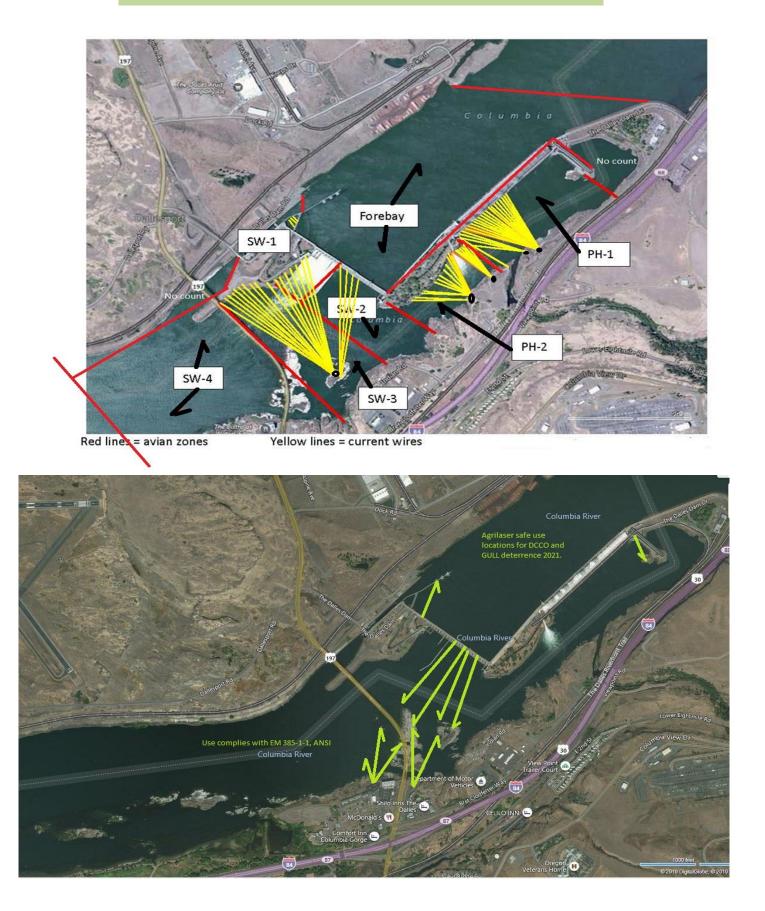

Fish Accords Lamprey Passage plan ongoing at 90% due 09/01 DDR junction pool LPS. Investigating mods for entrance and exit weirs. PTAGIS fishladder data collection at count stations continues

Operations

Ice Trash sluiceway endgate closed. Sluicegates 1,16 open to forebay. East and North fishways in full service

Approved by: Ron Twiner, Operation Project Manager, The Dalles Dam

## Bird Count Zones, Avian Lines and Laser Deterrent Sites

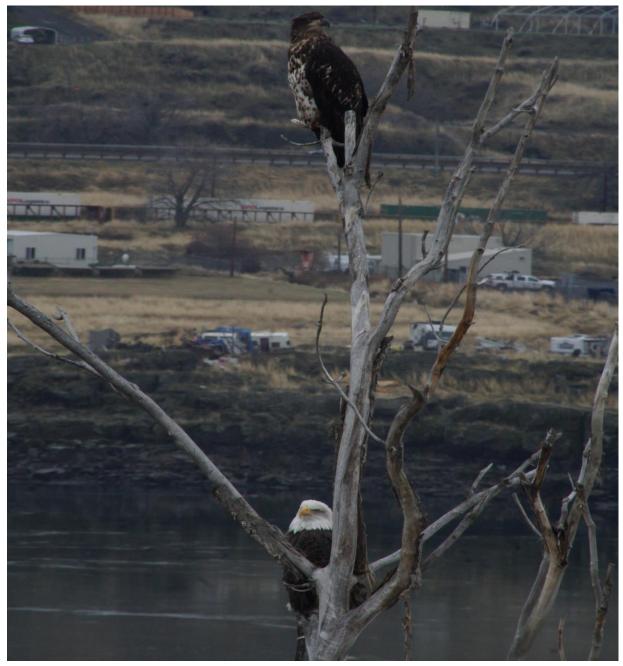

Eagle numbers fluctuate daily but are trending upward to roughly peak of 15 around midday. Non foraging gulls distancing from eagles in SW4.

Endgate closed 12/16/22. Intakes 1-8-16-18 open.
