OTHER ISSUES:

Birds/Sea lions:

Bird observation data collected once daily. Refer to Avian Zone map. Hazers schedule to start 4/16. Hazing 14hrs/day by boat and/or shore.

Sealion CO14 has been observed nearly everyday near a fish ladder entrance mostly at the west entrance but also at the south.

Operations:

Gatewell drawdown completed 4/16. All differentials within critieria.

Wind conditions did not allow for Calibration. Calibration to be performed 4/19

Spill for juvenile salmon started on April 10.

Current Outages:

T8 (MU15 & MU16) forced out due to transformer failure. Return unknown.

MU3 forced out through 6/9/2016 due to loss of governor sump oil level

Maintenance:

South entrance dewater pump rehab planned for this summer.

Awaiting east exit weir electrical panel FCQ7 panel. May 20 delivery date. To be installed on gallery but not connected until funding available.

Tailrace crane repair near west entrance delayed to June. No excessive noise observed near west entrance from this work.

Long Term repair maintenanced plans; 154 -157 weir mods, collection channel diffusers decomission, repair failed diffusers - all on hold due to funding Fish related /non-fish funded items; spillway evaluation, spillway crane rehab, spillgate 9 trunnion pin replace, sluiceway chaingate rehab (near complete) fish unit breaker replace (in planning), Fish unit rehab (in planning) and transformer replace (in planning).

All spillway items on Critical Infrastructure list and Unfunded Requirement list.

Studies:

North fishladder rehab study for rock wall ongoing. Construction 2017/18. FPOM review as needed.

East fishladder emergency backup construction delayed. No new development.

Crane rail replacement on tailrace and intake 2016/17. To be completed within in water work period.

Transformer replacement planning underway. Plans to eliminate fish unit TA transformers. Install start 2017. Planning meetings continue.

Fish Field Unit working with project electrical shop for upgrades to north lighting to resume video counting from last season.

In process of updating N Wasco Co PUD Memo of Agreement. Meeting with PUD staff 4/12 to review.

Fish unit rehab project plan started. Will increase reliabilility of fish units and potential redundancy.

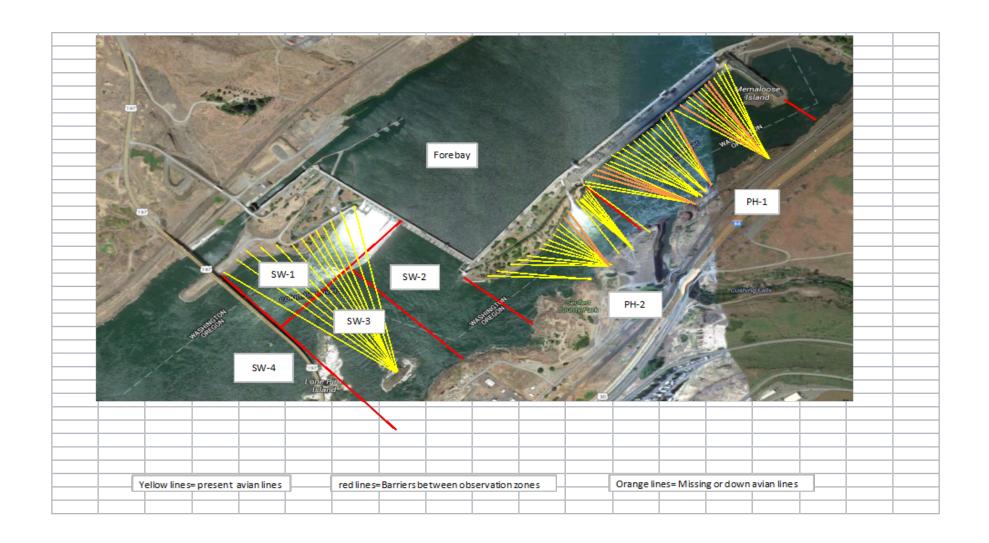

Research/Contractors:

Normandeau fish counters season resumed Apr1. No issues.

USDA avian hazer were not able to start Apr16 because there was no signed contract in place.
