Mr. Kruzic:

Enclosed is a report titled, "Willamette Spring Chinook Hatchery and Genetic Management Plan Implementation, Reporting Period: 2019-2021" to fulfill the Terms and Conditions subsection 4b, in the 2019 hatchery Biological Opinion, Evaluation of Hatchery Programs for spring Chinook Salmon, summer steelhead, and rainbow trout in the Upper Willamette River Basin, issued by the National Marine Fisheries Service.

We look forward working with you to successfully implement the Hatchery and Genetic and Management Plans. Please feel free to contact myself or Tammy Mackey if you have any questions.

Sincerely,

Kelly Reis
