Call in number: 866-340-4886 // PASSCODE: 224871933#

Proposed Meeting Agenda

Meeting Purpose: To seek consensus regarding technical issues on research, monitoring and evaluation needs of the Willamette system and projects in order to support decisions that will be made by managers.

9:00 Welcome, Housekeeping, and Updates

- Check in on action items from previous meetings – any updates or support needed?
- Review and approve 6/28 and 7/26 meeting summaries

9:20 Discussion Items (the group will decide timing for each)

- Updates on Dexter data gap discussions and next steps (Dave/Kelly)
 - *Note: Rich shared via email that the "SWIFT" working group will be further analyzing flow and habitat conditions downstream; they met August 14th to outline the analysis approach. Results will be available in fall 2019, and will inform questions about habitat conditions for juvenile Chinook below DEX.*
 - *Update from Kelly: Jeff was advocating for conducting a survival study for fry released into the Middle Fork Willamette below Dexter prior to developing a downstream migrant strategy for spring Chinook from above Lookout Point Dam. It is his understanding that this information does not currently exist.*
- LOP Reservoir Operations
 - Report back on conversation regarding mainstem flow targets (Diana)
 - *Note: updated JPL-19-01-LOP ResSim results will be provided at the September meeting*
 - Tee up JPL-19-02-LOP for the Steering Team (All)
- Information Tracking ideas (Diana and Rachel)
- FY 19 Concepts
 - Report back on Steering Team decisions;
 - Any discussion/work needed on the FY19 concepts identified to move forward with proposals?
