

***Weekly Summary***  
***West Region SHG***  
***March 06, 2015***

**Bandon**

- Picked and transported Coos and Tenmile StW egg groups halfway to Cole Rivers.
- Spawned Coquille and South Forks StW.
- Hauled carcasses upriver, collected and hauled broodstock from upriver.
- Helped Tom Rumreich set up trap and do repairs at Beaver Creek Acclimation Site.
- Nathan Haines worked his last weekend as temporary tech at Bandon and is loading up to move to Leaburg Hatchery.

**Cole Rivers**

- Several members of the crew have been out sick this week.
- Took the lib truck in to have work done on it.
- EOM counts and paperwork done this week.
- Received 3715 StW eggs from Bandon.
- No injuries or near misses this week.

**Elk River**

- No hot topics for this report

**Leaburg**

- No Hot Topics to Report, just routine fish culture, liberations, and maintenance.

**Marion Forks**

- On Monday and Wednesday the crew transferred 261,000+ SAFE ChS to Tongue Point for acclimation. The fish handled the long trip well with little to no mortality.
- End of month reports were completed during the week.
- End of the month sampling was completed, along with basic fish culture duties.

**McKenzie**

- No Hot Topics to Report, just routine fish culture, liberations, and maintenance.

## Minto

Species	Weekly Total	Cum. Total	Recycled/outplanted	Rel. Upstream
STW	1	1	0	1
StS	0	0	0	0
CHS	0	0	0	0

- Worked on hand rail for lib truck, cutting and fabricating
- Weekly Minto coordination meeting on Wednesday
- Set up raceways for STS transfer from Willamette next week
- River flows at 1070 CFS, very low for this time of year.

## Roaring River

- We serviced fish pump and got it set up and ready for some of our summer steelhead which are going out in a couple weeks.
- Treated for trich in 4 troughs of our newly ponded fry. They seemed to look good and are doing well.
- We had our monthly safety meeting this week. We talked about the OSHA form 300 and 300A. The crew also talked about some safety issues and ways to fix them.
- Hauled out some excess 2yr old brood to EE Wilson, Walter Wirth, Timber Linn, Waverly, St. Louis Pds, and Canby Pd. They all looked good and it will make some fisherman very happy.
- Finishing up end of the month reports and normal fish culture duties kept us busy the rest of the week.

## Rock Creek

- No hot topics for this report

## S. Santiam

- The Foster Trap is being checked several times a week with 0 unmarked StW adults trapped and hauled upstream this week.

Species	Weekly Total	Cum. Total	Recycled*	Rel. Upstream
StW (2415)	0	7	Na	7
StS (2416)	0	0	Na	Na
Chinook	0	0	0	0

- Exchanged stainless steel with aluminum tank lid on new lib truck.
- In process of building and installing displacement gauge on new lib truck.
- Installed new hot water tank in one of hatchery residence.
- Began work on installing new cabinets in one of the hatchery residence
- Held hatchery safety meeting.
- The rest of the week was spent on general fish culture and routine maintenance.

## Willamette

- No Hot Topics to Report, just routine fish culture, liberations, and maintenance.
