

Weekly Summary
West Region SHG
June 12, 2015

Bandon

- Bill from Fish ID removed the 4F marking trailer.
- Bruce is welding up the last wall of aluminum for our fish trap and holding pond.
- Kevin is removing carpet and patching floor for new flooring in the tech house.
- Sam is cleaning up the adult pond and setting up the StW pond to get some tanks moved outside.

Cole Rivers

- Hauled fish to Upper Rogue
- Finished marking the 5214 StW and started on the 72T14 Rb
- Hauled the 3714 ChF to Morgan Creek Acc.
- Reran adult 5215 ChS downstream
- General fish culture
- No injuries or near misses this week

Elk River

- No hot topics for this week, routine fish culture and maintenance

Leaburg

- Jeff Davis started a job rotation as a Fisheries Information Specialist at Salem Headquarters that's set to last through October.
- Routine fish culture, maintenance, grounds-keeping, and fish stocking.

Marion Fork

- Upper Patjens, Middle Patjens, and Pineridge were the high lakes stocked this week.
- Free Fishing Day was pretty slow for us with the event being moved to Detroit Flats due to low water in the reservoir. 60 kids attended the event and 50 fished at the pond. We were able to bump up the limit on fish and spend quality time with the 50 kids that fished. The fish were biting great. Henry Miller from the Statesman Journal attended the event.
- We have been preparing for the Marion Lake Backpack Stocking trip on Saturday the 13th. We ran an article in the Statesman Journal looking for volunteers and should have plenty. We are expecting somewhere around 140 people with crew and volunteers. We picked up the food for the "Thank You" BBQ on Thursday.

McKenzie

McKenzie Fish Count 2015					
Spring Chinook	Males	Females	Jacks		
This Weeks Collection	538	288	47	Season To Date	Last Year to Date
Total	2,830	1,796	105	4,731	812

- Collection of fish continues strong allowing us to fill food bank needs. Food For Lane County received 2628 lbs. and the Oregon Food Bank received 5044 lbs. There are only 50 fish in the trap Friday morning after emptying it on Thursday. We have the Corvallis Food Center scheduled for Monday.
- DEQ temperature and TSS samples were recorded and taken into the lab.
- Sarah Bjork was here on Thursday for the monthly fish health check. Pond 5 has been experiencing elevated mortality lately and Sarah suspects either CWD or Furunculosis. This is really early for us to have trouble with either of these, it has been a unusual year for a lot of fish related stuff. So far mortality is still fairly low and we hope it just goes away since we start fin clipping in 10 days.

Minto

- No hot topics for this week, routine fish culture and maintenance

Roaring River

- Liberations this week consisted of legal and trophy rainbow to Silver Creek Res., Sheridan Pd., Timber Linn Lk., and Olallie Lk. We also stocked legal rainbow to Breitenbush, Quartzville and the Santiam. We also did some high lake stocking to Buck Lk., and Elkhorn Lk. All the fish looked good.
- The crew cleaned up after the FFD event on Saturday. We had about 500 kids that showed up to fish. There were no bad comments everyone had good things to say, kid were happy and were glad that we have this event. Again this year we combined our event with South Santiam which seems to work really well.
- A tour was given on Wednesday to about 140 kids from Silverton 6th graders. They had fun learning about the hatchery and enjoyed feeding the fish.
- Pond cleaning, pressure washing, and fish care took up remainder of the week.

Rock Creek

- No hot topics for this week, routine fish culture and maintenance

S. Santiam

- The Foster Trap was operated on Tuesday of this week. All unmarked StW and ChS are hauled upstream to River Bend CG.

Species	Weekly Total	Cum. Total	Recycled*	Rel. Upstream
StW (2415)	0	• 127	Na	127
StS (2416)	74	210	52	Na
ChS	610	3510	1868	298

- *StS recycled numbers are cumulative and include reruns.
- We sold 604 ChS adults to FishHawk Fisheries this week.
- Free Fishing Day at Roaring River was a huge success again this year with 500 kids 12 and under all catching fish. Thanks to RR staff for letting us share the event with them.
- We treated our summer Steelhead for Trich this week.

Willamette

- No hot topics for this week, routine fish culture and maintenance
