

Weekly Summary
West Region SHG
July 24, 2015

Bandon

- No hot topics for this week, routine fish culture and maintenance

Cole Rivers

- We did another fish kill for MAK Consulting on Monday
- The 72T14 Rb Broke with Trich. There was high loss in three of the ponds
- Hauled 72T13 Rb to the Upper Rogue Section 5 on Friday

Elk River

- No hot topics for this week, routine fish culture and maintenance

Leaburg

- The pollution abatement settling ponds have been drained in an effort to dry the accumulated sediment which is slated for removal next week.
- 31 adult summer steelhead were taken to South Santiam Hatchery to help with their broodstock needs. Although it wasn't a big load, we needed to empty the trap as part of the effort to clean the settling ponds.
- Erik attended the Hatchery Manager's meeting in Adair. It was nice to see Neal Rash up and around, serving his world famous barbecued chicken.
- The crew has been busy filling cracks and gaps in the asphalt roadways with a hot melt asphalt and rubber compound in preparation for a slurry seal to smooth out the rough surface and extend longevity.

Marion Forks

- No hot topics for this week, routine fish culture and maintenance

McKenzie

- No hot topics for this week, routine fish culture and maintenance

Minto

Species	Weekly Total	Cum. Total	Recycled/outplanted	Rel. Upstream
STW	0	186	0	186
StS	19	222	298	0
CHS	349	2292	0	499

-
- Collection continues to be slow with water temperature hovering around 55 degrees this week.
- Outplanted 58 marked CHS to Breitenbush and 28 non-marked CHS to the N. Santiam.

Roaring River

- The Crew started grading and splitting our 72T14 Rb this week. Two of the ponds are done and the third pond we will do next week. The fish all looked good and some were a little bigger than we thought.
- We received about 75k 3315 Siletz stock STS from Salmon River. They all looked good and are eating well. We also received about 4,200 38W15 STW from Willamette Hatchery and they all looked good.
- Luke attended the managers meeting on Tuesday. He is going to Marion Forks on Friday to help out because they are shorthanded.
- Other fish culture activities kept us busy the rest of the week.

Rock Creek

- No hot topics for this week, routine fish culture and maintenance

S. Santiam

- The Foster Trap was operated on Tuesday of this week. All unmarked ChS are now being held until water temps drop.

Species	Weekly Total	Cum. Total	Recycled*	Rel. Upstream
StW (2415)	0	129	Na	129
StS (2416)	13	453	51	Na
ChS	62	5745	2437	470

- *StS recycled numbers are cumulative and include reruns.
- We received 31 StS adults from Leaburg and 105 from Minto for brood this week.
- Started treating adult StS at the Foster Facility for the first time. The system works well with no issues, so far...
- Nick hauled back 34,000 StS Juveniles from Roaring River.
- Robyn assisted Roaring River with grading Rainbows on Wednesday.
- Brett attended the Managers meeting on Tuesday.
- With the wildfires burning close to Marion Forks Hatchery water supply, the liberation trucks have been prepped and are ready to assist if called upon.
- Adult fish movement has slowed down considerably.
- General fish culture and fin marking preparation rounded out the week.

Willamette

Willamette Fish Collection 2015				
Spring Chinook		Steelhead		
Adult		Summer		
8583		119		

- Rainbow libs for the week: Quartzville, Santiam and Breitenbush.
- Dan and Chad attended the Managers meeting in Corvallis.
- Our truck went to McKenzie on Monday to help outplant adults.
